About ROFMEX

The first synergistic event on promotion, education and know-how dedicated to the facility management (FM) industry in Romania which reunites, for three days, representatives of facility management and support services sectors - companies, specialists and authorities. An event that integrates the specialized exhibition, an international conference, the ROFMA certified training courses, as well as meetings, visits and practical applications gathered in the Experience Area.

The Exhibition

The most complex and effective marketing tool provided to manufacturers, importers and distributors of FM and support services technologies, equipment, products and solutions.

Displayed products and services will have the most effective exposure to an audience made up of specialists, corporate facility managers and other decision makers responsible for multimillion Euro budgets annually.

The exhibition themes include:

- Building automation and access systems;
- Lifts, escalators and moving walkways;
- Installations: plumbing, heating, refrigeration, electrical and professional lighting, water supply and sewerage, gas supply, ventilation and air conditioning;
- Products and equipment: professional cleaning, industrial waste collection and recycling, integrated pest control, landscaping and workplace management;
- Catering equipment;
- Office supplies and stationery;
- Industrial facility management services;
- IT & C and working environment solutions;
- Projects and integrated solutions for enhancing sustainability.

The International Conference

It's the optimal platform for experience exchanges, specialized debates in FM and support services areas of interest, knowledge and updated information dissemination, sharing latest developments and trends, as well as research results and specialized consultancy.

Romanian and international lecturers, reputable professionals in the FM and support services sectors' elite will speak upon "hot" topics of major interest.

Training Courses

The ROFMA certified training courses, held during ROFMEX, target specific professional skills development and enhancement of career opportunities.

The educational dimension of ROFMEX is an additional stand for networking and know-how, available to all participants in the event. They can see-and-touch, in the exhibition, the equipment and solutions mentioned in the training courses and also participate in demonstrations within the "Experience Area".

Experience Area

Demonstration programs at ROFMEX exhibitors' booths and documentation visits to representative buildings in Bucharest. Participants in "Experience Area" demos will see, touch and directly examine the most modern equipment, products and solutions used worldwide in FM activities.
